

YOUR DONATION COUNTS

The move to St. Paul is good for St. Elizabeth—in a neighborhood where there is good for us to do—but we need your help.

Although we have some funds set aside to prepare for safe occupancy, including work on the walls and roof, we still have much to do: renovating bathrooms and making them comfortable for small children and parents; updating the kitchen and church hall to welcome guests; and rendering basement and classroom spaces usable. Street level accessibility ramps must be added as soon as possible. We are also planning additional exterior work this spring.

In order to reach our goal, we ask members and friends to pledge their support.
